Memorandum in Support – The New York Electronic Communications Privacy Act

IN SUPPORT OF: A.09235 (Dinowitz)

SUBJECT: Relates to creating the New York electronic communications privacy act; relates to the search and seizure of electronic devices and electronic communications.

Dropbox strongly supports A.09235, legislation establishing the New York electronic communications privacy act (NYECPA).

Safeguarding the privacy of our users is a top priority at Dropbox. We strongly support efforts around the country to update privacy laws for today's digital society. Fourth Amendment rights must be protected as people move their lives online to the cloud. NYECPA does just that. It updates New York's digital privacy law and reinforces our constitutional rights by ensuring that police obtain a warrant before accessing New Yorkers' most sensitive information, regardless of whether that information is stored in a desk drawer or in a Dropbox account.

NYECPA will ensure that New Yorkers are not forced to choose between using new technology and their privacy. We urge you to support this bill and move it quickly through the legislative process.

Respectfully,

A handwritten signature in black ink, appearing to read 'Ramsey Homsany', written over a horizontal line.
